

100% ELECTRIC

# « Méhari »

Eden · Azur

100% electric evocation of the Citroën Méhari, crafted by the Méhari Club Cassis.

Originally launched as a limited edition of 700 units in 1983, this series was so successful it remained in the catalog through 1987. Our 2024 model offers effortless ease: an "Easy" automatic gearbox, no choke, near-silent operation – leaving only the sound of the wind. With its fast charger, it reaches 100% battery in just 3h30 on a standard household outlet.
